

Douglas Fir

Doug Fir is a timeless Northwest classic available in a wide range of styles, from clear to tight knot to an antique distressed look. A honey-golden toned wood, Douglas Fir has long been a favorite of architects and designers.

Quality is our first priority. Our lumber is carefully milled and kiln dried to produce a straight and stress-free floor board. Hand selected for grade, it is then moulded with a low offset tongue and groove for a deeper wear layer. Our mill's technicians maintain precise tolerances throughout the production process to assure a tight, long length, clean fitting floor that makes installation quick and easy.

TECHNICAL SPECIFICATIONS

Grades	CLEAR VERTICAL GRAIN (CVG) is our finest grade for fir, appropriate for wherever a refined, upscale look is sought. CVG grade is 90-100% vertical with occasional small pin knots. ALPINE fir flooring is a favorite when a simple, affordable country look is sought. This grade has a tight grain with frequent tight small knots no larger than 2" in diameter.
Color & Grain	CVG- Uniform rich honey ambers with some warm creams, very clean straight grain Alpine- Same colors as cvg with some deeper orange tones, more cream, grain patterning distinctly varied, cathedral patterns
Hardness	Janka rating 890 lbs (residential and light commercial applications)
Dimensions	CVG- 3/4" x 3-1/4" lengths 2-8'+ (avg. 5-6') longer may be specified Alpine- 3/4 x 3", 4" & 5" face widths lengths: 1 to 8' (avg. 36 – 42" typ.)
Kiln Drying	Kiln dried to 10-12% moisture content (industry standard for softwood flooring)
Millwork	Low offset, square edged tongue and groove pattern for extended wear surface Precision square cut ends (no site trimming of ends required)
Packaging	6 piece, easy to carry, like length bundles (orders pulled to exact quantity needed)
Eco-Status	CVG- Northwest Native & FSC certified Alpine- Northwest Native & Restoration Forestry
Source Region	CVG- FSC certified woods from Washington and Canada Alpine- Restorative Forestry primarily on public lands in N. California
Lead Time	In stock regularly, ships within 2-3 days from order (2-4 weeks if production necessary based on volume)
